

CSR Complete

webbased CSR-reporting and monitoring

Your organisation considers Corporate Social Responsibility to be of paramount importance. However, how do you gather the performance data? Which data is of importance to your organisation? How do you present that data simply and in a sustainable manner to your stakeholders? The answer: CSR Complete.

CSR Complete

Corporate Social Responsibility

More insight in less time

CSR Complete is a unique method which enables you to collate your CSR data efficiently, to analyse this and to publish this on the Internet. With the assistance of an experienced project manager, your data will be accumulated and managed online and will then be communicated in a form that targets the recipient. In this way, you create a fast, efficient and sustainable overview of relevant social, environmental and societal data, for both yourself and your stakeholders.

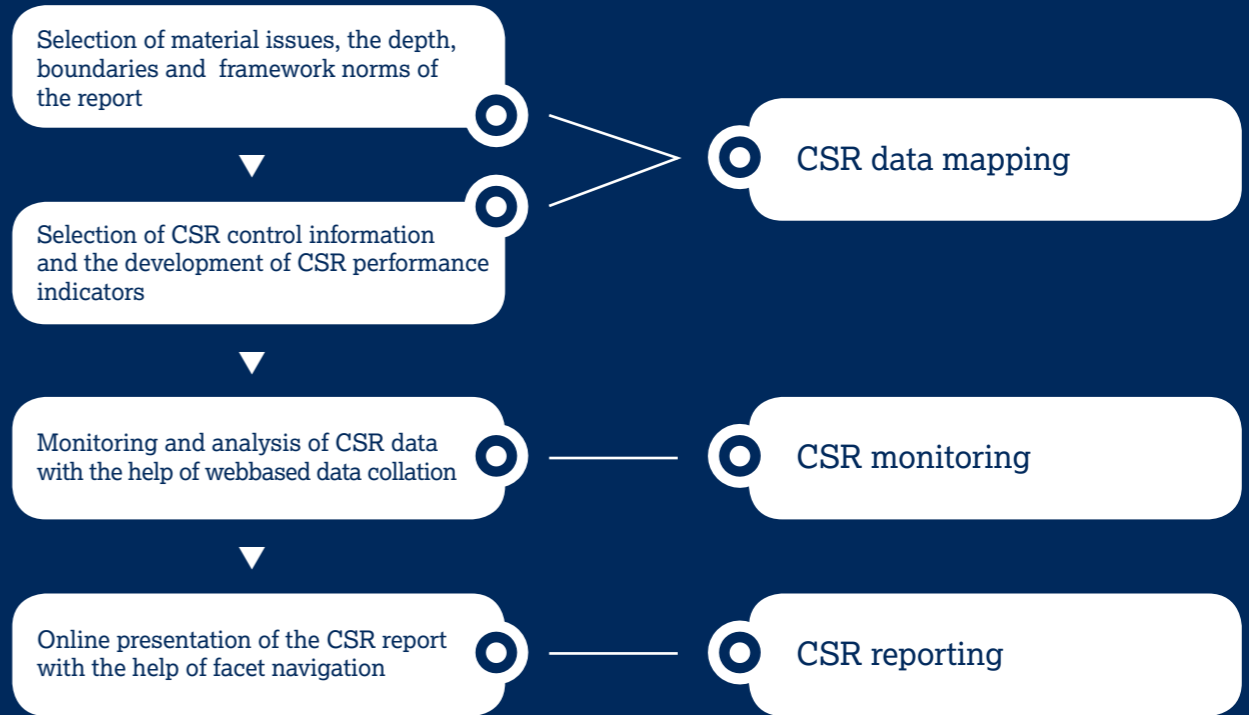

Twice as experienced

With the combination of BClimate and Facetbase, you will gain both experience and solutions. BClimate offers you substantive support, based on many years of experience in establishing and producing CSR reports. Based on facet navigation, Facetbase will create interactive online reports, which have optimal accessibility and which have improved search and findability options. Together, we can offer you a package of tools which enable you to measure, control and communicate your CSR policy.

The more complete it is, the better

CSR Complete will take care of your entire reporting process. Our experienced project managers will always be there to provide you with the support you need – from creating the project plan to selecting and compiling relevant control and reporting data, from the synopsis to the final internet-based report. We even employ copywriters and designers to whom you would have access. This means that you work with a single party during the entire process. This results in savings in terms of time, fuss and money.

Control and reporting with CSR Complete

The benefits of CSR Complete

Complete, simple and sustainable reporting about your CSR activities. One experienced party is responsible for the entire development process. Assistance with selecting and collating relevant data. Well-organised project planning. An optimal insight into data through smart internet applications. Jointly, BClimate and Facetbase provide a powerful solution, with CSR Complete.

Opt for simplicity and sustainability in your CSR reports. Opt for CSR Complete. For more information, or if you wish to become personally acquainted with our products, please call: (+)31 073 5030737.
